

## KS2 Resource

Look through the different examples of people in difficult situations. Think of advice that you would give each person. Do you think that them giving up or stopping would be the right thing to do?

Nathan's homework is really hard. He is struggling and cannot do it. He really wants to complete it but has already spent two hours doing it.

Edwin is finding the climb difficult, but he is determined to make it to the top. He is almost there when he sees a fray in his safety rope.

Haleema's friends can all skip. She really wants to be able to as well as she finds it really embarrassing that she can't. She doesn't want anyone to know she can't do it so she practises at home but there isn't always time.

Katie is really good at football. Her mum takes her to football training twice a week. Katie really doesn't enjoy the training sessions and she just wants to play football at break and lunch with her school friends.
