

## Welcome to Year 1

### **The Tree Frog class:**

Miss Noonan  
Mrs Spelman  
Mrs Eager

### **The Leopards class:**

Miss Stone  
Mrs Brooks  
Miss Murphy

## **Our timetables**

*Timetables will be available to view on class webpages in September*

## **ASUPERHERO Curriculum**

*As a school we promise the children that we will explore and deliver ASUPERHERO curriculum*

**A**spiration

**S**ensory

**U**nforgettable

**P**rogress

**E**xciting/engaging

**R**elevant

**H**ope

**E**motional literacy

**R**eading

## Opportunity

### **Our curriculum is an Enquiry based curriculum...what does it mean?**

Each term we will introduce a new line of enquiry/question.

All our topics will begin with the children asking questions. We will discuss and share what we already know and also any problems or scenarios we are unsure of.

We will follow this line of enquiry within all aspects and areas of the curriculum.

Throughout the topic the children will aim to answer their questions.

### **Next year's lines of enquiry are:**

- How do we travel on Earth and beyond?
- What is everything made of?
- Is it busy in the city?
- Seasons and Weather – How do they affect us?
- Lowestoft and Gambia - Whose home is this?

### **English:**

English is taught through a power of reading text.

Next year's POR texts are:

- Beegu by Alexis Deacon
- Man on the Moon by Simon Bartram
- Claude in the City by Alex T Smith
- Out and About by Shirley Hughes
- Grace and Family by Mary Hoffman

**Please do not share these stories with your child/ren at home! We will explore the texts over a 6 week period and reveal them bit by bit!**

### **Reading**

Please ensure that all children are reading at home every day.

Children will have an opportunity to change their reading books on a daily basis.

Children will visit the school's 'Lost Library' once a week – Please ensure library books are returned. KS1 pupils can only have one book borrowed at a time.

## Maths

All children have 3 opportunities to engage with maths across the school day.

Every day children will engage in:

- Times tables
- Maths workout
- Daily maths lessons.

## PE

Each class will have 2 PE sessions within a week.

PE is taught on a Monday and Thursday in Year 1.

Please ensure pupils come to school wearing their PE kits on these days.

*Please refer to our uniform policy for clarification on PE kits.*

This term we will be asking and answering the question:

What is everything made of?

## Homework project:

### What materials are around you?

Create your own model using pieces of junk from around your house.

You could make a house, an animal, a vehicle, or anything else you find interesting.

What are the properties of the materials? Are they rough, smooth, hard, soft, shiny or dull?

You could sort some materials into their properties, make some flashcards about the materials you know... the possibilities are endless.

Be creative!

Please send photos of your completed homework projects into school via the school email.  
We look forward to seeing them!

### **What are we getting up to?**

All of our recent learning will be shared on social media (Facebook & Twitter)  
We will also share our learning on our class pages on the school website.
